

MAINSTREAM PROGRAM

SE - 1 COURSE PROJECT [PHASE 2 - COVER SHEET]

Discussions are Scheduled for Week 13/14 (Details TBA Later).

- Print 1 copy of this cover sheet and attach it to a printed copy of the documentation (SRS, etc.). You must also submit soft copies of all your documents (as PDFs); details will be announced later.
- Please write all your names in Arabic.
- Please make sure that your students' IDs are correct.
- Handwritten Signatures for the attendance of all team members should be filled in before the discussion.
- Please attend the discussion on time (announced separately); late teams will lose 5 grades.

Project Name: _____

Team Information (typed, not handwritten, except for the attendance signature):

	ID [Ordered by ID]	Full Name [In Arabic]	Attendance [Handwritten Signature]	Final Grade
1				
2				
3				
4				
5				
6				
7				

Grading Criteria:

14 Items		Grade	Notes
1. Functional Requirements [the final version including any necessary updates]	–		
2. Non-Functional Requirements [the final version including any necessary updates]	–		
3. Use-Case Diagram(s) [the final version including any necessary updates]	–		

4. System Architecture [<i>the final version including any necessary updates</i>]	–		
5. Activity Diagrams [<i>the final version including any necessary updates</i>]	–		
6. Object Diagrams [<i>the final version including any necessary updates</i>]	–		
7. Package Diagram(s)	1		
8. Sequence Diagrams including System Sequence Diagrams (SSDs)	2		
9. Database Specification (ERD, Tables)	1		
10. Collaboration/Communication Diagrams	1		
11. Class Diagram (<i>2nd and 3rd versions</i>) 1) An intermediate version based on the interaction diagrams. 2) A final version after applying the design patterns and other modifications.	3		
12. Three Mandatory Design Patterns Applied (Including a typed description)	3		
13. Front End Design for all Functions (HTML, Bootstrap)	1		
14. Implementation based on the submitted Requirements & Design. Should include at least 4 of the following modules (in addition, of course, to modules specific to your projects): 1) User Role Management Module. 2) User manipulation Module (Login, Add / Delete / Update / Search, List). 3) Controlling Resources Module (Rooms, Orders, Products, etc.). 4) Reservation and Rescheduling Module. 5) Generating Reports Module (PDFs, etc.). 6) Sending Emails or Notifications Module.	5		
15. Complexity & Testing	2
